

Evolution™ Spinal Implant Remover Kit

ES0001

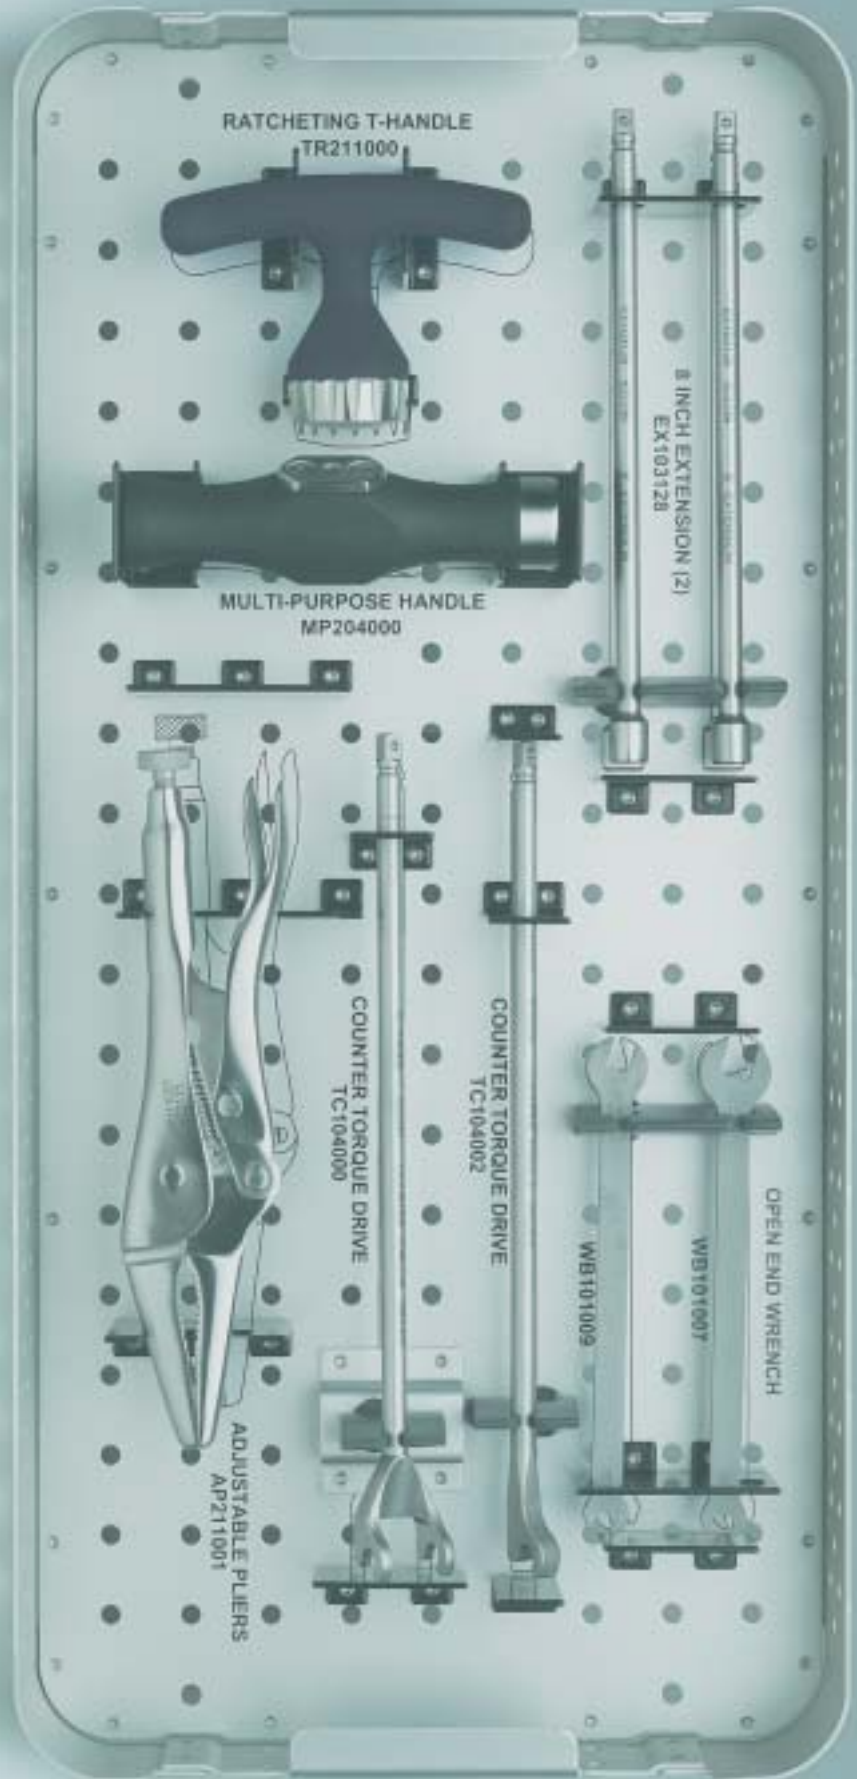

Complete system with handles, extensions, wrenches and drivers. Includes instrument and driver identifier chart.

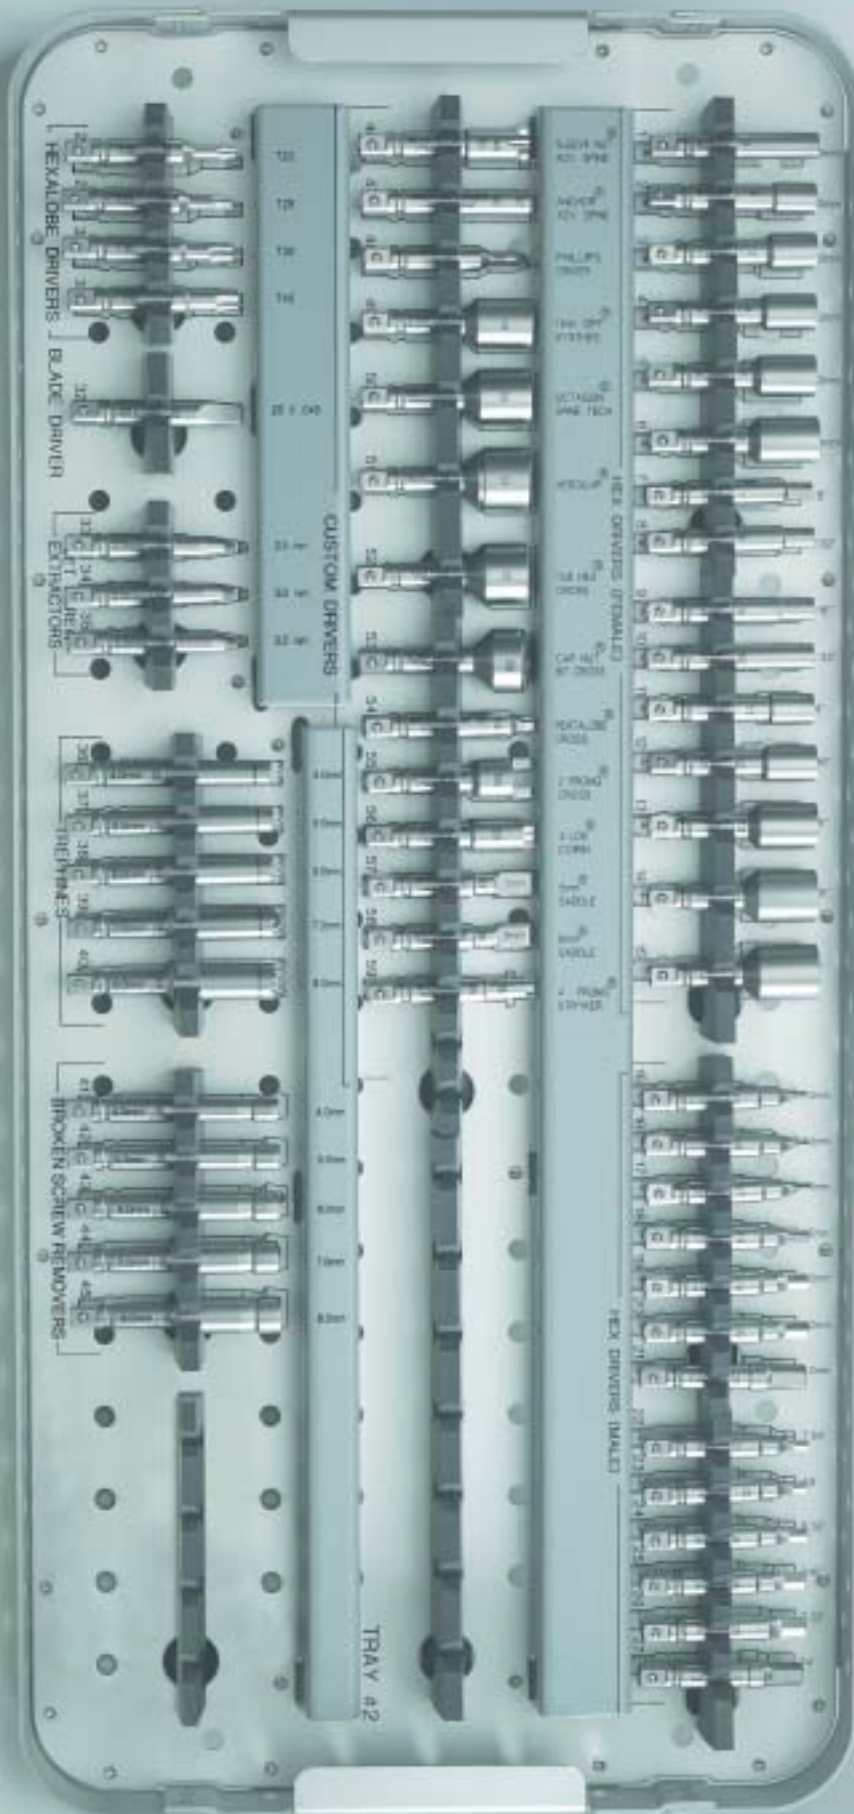

Upper Tray (#1)

ES000110

The upper tray is specially designed to include the tools necessary to perform a successful lumbar revision.

The various handles, extensions and wrenches provide removal options based on both procedural needs and surgeon preference.

Bottom Tray (#2)

ES000120

This tray contains 62 standard metric and custom drivers to offer unparalleled ability to accommodate the majority of lumbar revision needs.
